GENERAL NEWS.

EDINEURCH, August 19.

In a previous letter I stated that M: Alexander Cross of the Camlachie Division had seceded from the Unionists, and now another Glargow member has crossed the floor. Upon his return to the House of Commons after a long illness, Mr Cameron Corbett of the Tradeston Division took his seat amongst the Liberals below the gangway. This action is the sequel of Mr Corbett's public announcement of his change of attitude, and would have taken place some time ago but for his enforced absence from Westminster.

After serving the office of Provest of Strapraer for nine years, the Earl of Stair has intimated that he does not intend to seek re-election.

There has been a considerable falling of with the corresponding months of previous years, and toototal enthusiasts are trying to persuade themselves that at last a boneficent Government has succeeded in budgetting us in sobriety. But we shall wait for a little time longer before we commit ourselves to so interesting a conclusion An interesting experiment is going on in the beautiful valley of the Spean in Lockaber, near the Parralel Roads of Glen Boy, under the suspices of the An Comunn Gaidhealach,—the Gaelie Association - a summer school for the study of Gaelie and of Highland music during the month of August.

For medical services to the wounded in Korea, Dr Brander, Fort William, a graduste of Edinburgh University, has had conferred on him by the Emperor of Japan the Sixth Order of the Sacred Treasure. Dr Brander was also decorated by the Emperor of China with the Third Order of the Double Dragon.

#### Bill Passed.

After sitting for about three hours yestorday afternoon the Hongkong Logislative Council passed the Bill providing for the imposition of duties on liquors brought into the Colony.

During a discussion on the clause providing for sourch of baggago and goods, Hon. Attorney General suggested the addition of the words : "if the person landing is of European race, the man shall be met by a European officer;" but eventally the clause was left as it originally atood.

Hon. Attorney General moved the insertion of a new clause, to be numbered 31, which Inid restrictions on the searching of baggage and goods generally. The clause road, "Any search of goods or baggage be made under the provisions of the two preceding sections, unless there is reasonable cause to suspect or believe that such goods or baggage contain dutiable liquors or denatured spirits."

Hop. Mr Osborne suggested that search should not be made unless there was reasonable cause to believe that smuggling had been practised. He asked if police officers would pounce down on an individual if they had information that that individual was bringing a case of whisky into the Colony from Shanghai-one isolated case

Hon. Attorney General-Certainly. No offence is a little one at that time.

Hon. Mr Osborne If you had information that "a case of whisky was being brought here from Shanghai, would you examine all the baggage on board?

Hon. Attorney-General-I should say His Excellency—This section is to some-

what modify the previous one. Hon. Mr Osborne-My point is that De Wilkinson and J. T. Douglas ... 5.00 unless there is reason to suppose there is smuggling going on, no search should be made to all.

Hon. Attorney-General-The meaning lof the section is that in no individual case of luggage shall be searched unless there is reasonable cause to suppose there are dutiable goods on board.

. The new clause was agreed to. At a subsequent stage Hon. Mr Murray Stewart said it appeared to him that some thing would have to be done to provide for possible injustice to people who have made forward contracts to deliver liquors to clubs, hospitals, and so on at the old prices

Those contracts may have been entered

into bond flde, and those people should be Hon, Mr Hewett thought the point ought to be considered, as he knew one firm had four contracts amounting to \$120,000 Those contracts would be repudiated if the goods ordered had to pay the new duty The Council should go slowly in interforing

with those contracts. Hon: Attorney-General replied that the revenue would come in very slowly undersuch conditions.

His Excellency-What suggestion have you for dealing with such a case? Hon. Mr Stewart-The Governor-in Council should consider such application made on the ground that the contracts had been made before these proposals were

Hon. Attorney-General-We propose to ask the Committee to give power to the Governor-in-Council in clause 54 to grant certain exemptions. . I most candidly think the case you put is not one that should be

dealt with under these powers: Hon. Mr Stewart-It should be con-

Hon. Colonial Fecretary-If they make applications they will be considered. A fairly long discussion took place on a motion by Hop. Dr. Ho Bai that regulations made under the Bill by the Governorin Council be submitted to the Legislative Council for approval before enforcement. His Excellency pointed out that if the regulations were passed by the Legislative

Council they had the force of law, and did not need to be considered by the Executive Council. It might be that the regulations would need to be altered from day to day, and for that reason he thought it advisable that they should be referred to the Executive Council. Any member of the Legis-lative Council had always the power to hring forward a resolution amending any particular regulation. He did not see that any power was taken from the Legislative Council, neither did he see the object of referring them to the Executive Council i they were to be again subjected to the

approval of the Legislative Council.

Hon. Mr Hewett said they did not wish to labour the point, but the unofficial members considered that an unwise regulation might injure the trade of the port, and for that reason they submitted that the regula-tions should be discussed by the Legislative Dr Ho Kais amondment was lost by

Hon. Colonel Darling said he wished to move an amendment to Clause 56. They had been told several times during the meeting that this Bill was drafted on the lines of the Singapore Bill, but be understood there were two clauses in the latter Bill which exempted officers and men of the army and navy from paying licences for their canteens or messes. He had been interesting himself on the subject during the last few days, and found that Hong-kong was the only Colony that did not make an exemption of that sort. In avery one of the others, either a rebute of the duty was made afterwards, or a lump sum was paid by the Colony which was based on the proportion of the average amount of duty they would pay, and that was divided up according to mak afterwards. Ho thought that the Committee would perhaps take into consideration the fact that soldiers land to go whele they were sent. It would be rather hard lines on the men who came here to know that they were the only soldiers serving abroad liable to such duties. He moved that I flie probable average amount of duty payable on liquous

consumed by officers, non-commissioned officers, petty officers and men of the army and navy in N.C.O. messes, institutes and canteens should be determined by a mixed committee of three civilians nominated by (Continued on Page 8.)

Skin Came Off from Finger Ends to Elbows-Treated for Months by Skin Specialists Who Could Do Nothing for this Distressing Case.

FOUND PERFECT CURE AT LAST IN CUTICURA

going to get better. The doctor advised me to go to a skin specialiss, and so I did. When he looked at my hands he said it was a very bad case. "I was under his care for a few months, but I was no better with all his treatment. I gave it up for a bad job, and I told my doctor I was getting no better. He recommended me to the \_\_\_\_ Infirmary to try another skin specialist. I tried his treatment for three months but found no benefit from it at all. Six years ago I thought I was not going to get a cure. One day I saw the Cuticura Remedies advertised and said I should like to give them a trial. I sent for Cuticura Scap and Cuticura Cintment. After I tried them and saw that my hands were coming on first class I persevered till I got a cure. Now my hands are all right and I am at my usual work. I am never without Cuticura Soap and Cintment and shall praise them wherever I go. Mr. William Roberts, 9, Top Row, Plasbenion, nr. Ruabon, North Wales, Eng., Nov. 12, 1907, and Jan. 29, 1908.
